Why establishing Water Excellency Centre platform is important?

Water Excellency Centre platform = "One-stop-shop"

- Uniting efforts of Baltic Sea countries
- Establishing a platform for specific groups
- Raising awareness
- Looking for the best solutions and partners
- Sharing knowledge and best practices
- Building market demand value chains
- Looking for funding

TAKE CARE OF THE WATER!

Baltic Sea,

All your troubles seems so close today
Now it looks as though they're here to stay
But We believe in Baltic Sea.

Our team,
Work together for so many days
Many workshops, reports, networks
And We believe in Our team.

Why it is so hard
We do know and we could say
We sing anyway **Baltic Sea** will be clean
again!
